Dear Mr. Pillai:

Your request to certify the educational institution, under the name and address shown above, is approved by the Minister of Employment, Workforce Development and Labour, under subparagraph 118.5(1)(a)(ii) of the *Income Tax Act*. This certification is effective as of January 1, 2018, and is subject to review every five years. Please note that you will be required to renew the certification prior to December 31, 2022.

Accordingly, students may claim the fees paid to the institution for purposes of the tuition tax credit provided that all other requirements for the claim are met. Additionally, students must have attained the age of 16 before the end of the year and the courses and/or programs supplied must provide the students with sufficient skills to enable them to work or improve their skills in a recognized occupation.

As per the Federal Budget 2016 announcement, please note that, as of January 2017, the federal education and textbook tax credits have been eliminated. This measure does not eliminate the tuition tax credit. Unused education and textbook credit amounts carried forward from years prior to 2017 can continue to be claimed in 2017 and subsequent years.

The attached document includes important information regarding your certification and your responsibilities regarding it.
